nold. This is one of the handsomest properties in that section of the city, and Mrs. Arnold's friends will congratulate her upon this new possession.

Col. John B. Dell of Hague was among those who spent yesterday in this city. Col. Dell and his interesting family formerly resided here, and had a nice home on Roper avenue, East Gainesville; but Col. Dell's interests in the country demanded his time and attention, hence he moved back to Hague.

Friends of Miss Margaret B. Taylor, who has been suffering with fever, will be glad to learn that she is greatly improved, and that the chances for her recovery are now certain. Miss Taylor's condition for a time was quite serious, and it was doubtful whether she would ever be up again.

Chas. Crispin of Philadelphia, the clever traveling representative of the Columbia Phonograph Company, with headquarters in Atlanta, is in the city. Mr. Crispin is virtually an old-timer here, as he formally represented a crockery house with great success. His old friends are glad to welcome him again.

A. R. Merrill of Jacksonville, general manager of the Merrill-Stevens Company, the most extensive machinists in the South, was in the city on business yesterday. The Merrill-Stevens Company have the largest dry dock on the Atlantic Coast south of Newport News, which gives them a big prestige.

Remember the big tent show, "Ten Nights in a Bar-room," which will be played in this city tonight, beginning at 8 o'clock. This will be one of the greatest theatrical performances ever seen in this city, and should appeal to all elements. Remember, the show will begin in the tent on East Main street N., opposite the Union Academy, at 8 o'clock this evening.

Mr. Carnes, special representative of the firm of N. G. Wade & Co., wood contractors for the Atlantic Coast Line, left yesterday for Leesburg and other points in the interest of his employees. Wade & Co. are among the most extensive contractors in the State for wood, and have enjoyed a fine business. They have recently removed their headquarters to this city.

J. M. Turner, Jr., of Jacksonville, is spending a few days here with his friends. Mr. Turner was reared in Gainesville, and has become one of the leading spirits in the development of Jacksonville where he is now engaged in the manufacture of candy. He does not forget this city and his friends here, however, and the result is that his goods are taking well here.

The Sun asks as a favor that its readers patronize the merchants who are advertising in its columns. They have good stocks and deserve it. The prices are attractive because the goods have been marked down to the lowest notch. Read the advertisements, mark what you want and go prepared to do your Christmas buying now. Don't put it off until the last day.

Millions of bottles of Foley's Honey and Tar have been sold without any person ever having experienced any other than beneficial results from its use for coughs, colds and lung troubles. This is because the genuine Foley's Honey and Tar in the yellow package contains no opiate or other harmful drugs. Guard your health by refusing any but the genuine. J. W. McCollum & Co.

It has been noted from a Brooksville paper that Arthur L. Glass and family have removed to Palatka, where they will make their home at

least for the present. Mr. Glass is connected with the Tampa Northern, but owing to the fact that work has been suspended on that road for the present, he decided to take his family to Palatka, which was his former home.

Wolf, who have been pleasantly located in North Gainesville for some time, have moved into a cottage on North Prairie avenue, East Gainesville, which was formerly a part of the famous old Townsend house. The party visited many points of interest, and the trip was one which will ever be remembered and cherished by those who participated in it.

Mrs. J. S. Goode returned yesterday from Jacksonville, where she has been on a brief visit. She went to meet her daughter, Miss Lovie, who has been attending the Conservatory of Music in Cincinnati, and Miss Goode's friends, Misses Myrtle Zeigler of Cincinnati and Nettie Ann of Louisville, who arrived in the morning, proceeding to Gainesville on the afternoon train. The young ladies are possessed of most amiable, entertaining dispositions, and will no doubt prove popular here.

ANOTHER WONDER OF SCIENCE.

Biology has Proved that Dandruff is Caused by a Germ.

Science is doing wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the root of the hair, where it saps the vitality, causing itching scalp, falling hair, and finally baldness. Without dandruff hair must grow luxuriantly. It is the only destroyer of dandruff. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

CHAS. G. FISH HAS DISAPPEARED

Left Suddenly, With Instructions
to Give His Stuff to Wm. Goore.

HAD NO CAUSE FOR LEAVING

Owed Nobody a Cent, But Decided to
Leave Town Under Peculiar Circum-
stances—Goore Had Been His
Friends, and He Was Faithful.

Chas. G. Fish, for a couple of years
manager of the pool room here, and
later running a popcorn roaster at
the corner of East Union and East
Main streets, has suddenly disappear-
ed, and his friends appear anxious
about him.

Mr. Fish did not disappear for any
dishonest reason, for no man has yet
been found who could say that Mr.
Fish owed him a penny. It appears
merely a question of despondency and
delirium from recent illness which
caused him to leave as he did, as he
was apparently doing well in his
profession as a popcorn man, selling
all the corn that he could handle
alone. In fact, it is known that he
has sold from \$12 to \$15 worth of
popcorn on certain days, and his aver-
age sales would run from \$4 to \$6,
which meant that he was making a
good living, as the profit will run at
least 125 per cent.

But Mr. Fish took a sudden notion
to leave, and he left a note addressed
to the county and city officials, in
which he stated that he desired all his
effects turned over to William Goore,
who had always befriended him, and
to whom he desired his effects should
be surrendered.

Mr. Fish made a most mysterious
disappearance, but it is said that a
telephone message was received from
Evinston Thursday stating that a man
had been apprehended there who was
in a semi-conscious state, but stated
that he was formerly manager of the
pool room in Gainesville. His descrip-
tion answered the description of Mr.
Fish, and it is believed he was the
man. The telephone message did not
say whether the parties took charge
of the unfortunate man or not.

Mr. Fish is well known in Gaines-
ville, especially among those who
frequent the pool room. He was a
man always well behaved, notwith-
standing the difficulties with which he
was confronted. After leaving the
pool room he purchased a popcorn ma-
chine, which he has been operating
until recently, when he was taken ill.

Mr. Michel Was Pleased.

Among the prominent travelling men
who have spent the past two or three
days in this city was Frank G. Michel
of Baltimore, representing D. S. Wall-
enstein, ostrich goods and imported
millinery and fancy goods.

Mr. Michel, who has been accus-
tomed to travelling only North Carolina
and Florida in the South, was deeply
impressed with Gainesville, declaring
it one of the prettiest, most up-to-date
cities he has ever visited. "I came
here to stay only a couple of days,"
he said, "but so infatuated did I be-
come with your beautiful streets, your
magnificent shade trees—and in fact
with everything connected with the
hospitality of your people—that I have
come to love the town, and I am now
ten days late on my way home for
Christmas, simply because of these
things. I hope to have my trips so
adjusted that I can come this way at
regular intervals."

Mr. Michel left on the evening train
Friday, declaring, however, that he
would register a "kick" for this terri-
ble delay for the first of the coming year.

Holiday Concerts.

Ward & Tench are up-to-date, not
only in the shoes they advertise, but
in everything else. As a mark of
respect to friends and the public there
will be a concert at the store every evening.
Mr. M. Tench, who is an expert
in coming to handling a flute,
which has attracted many people
to the store by his excellent qualities
as a flute performer, and his friends
and neighbors who hear him have extend-
ed their heartiest compliments to him
as a musician. If you want to hear
a flute, "strike" the store about 8
o'clock, but don't "strike" the musi-
cians.

BABY TORTURED FOR 6 MONTHS

By Terrible Itching Eczema—Face
and Head a Solid Sore—Spread
to His Hand and Legs—Would
Scratch Until He Bled—Tiny Suf-
ferer Immediately Relieved and

ENTIRELY CURED IN 2
MONTHS BY CUTICURA

"When my son Walter was three weeks
old, eczema appeared on his face. We did
not know what it was, so we went
to a doctor who treated him for
three months. Then he was so
bad that his face
and head were
nothing but one
solid sore, and his
ears looked as if
they were going
to fall off, so we
tried another doctor.
He said he could
cure him and we
doctored there four months, the baby
never getting any better. His hand
and legs then had big sores on them,
and as for his sleeping, we could not
think of it, the poor little fellow suf-
fered so terribly. First I tied his hands
to the crib to keep him from scratching,
but when it got so bad I tied him in a
shawl or he would scratch himself all
bloody. When he was seven months old
we tried a set of the Cuticura Remedies.
The first application of Cuticura let
him sleep and rest well, in one week
the sores were gone but it stayed red
and sometimes it would itch so we
used Cuticura for two months, then he
had a clear and white face. Now he is
two years and seven months old and
has never had eczema again. I hope
this letter will help some who are suffer-
ing from skin disease. Every mother
who has a baby suffering with skin
disease should just try Cuticura; there
is nothing better. Mrs. Louis Beck, R.
F.D. 3, San Antonio, Tex., Apr. 15, '07."

A single set of Cuticura Remedies is
often sufficient to cure torturing, dis-
figuring, itching, burning, and scaly
humors, eczemas, rashes, and irritations,
from infancy to age, when all other
remedies fail.

Complete External and Internal Treatment for
Every Humor consists of Cuticura Soap, (25c.) to

WALDO IS GROWING.

Waldo Bank's New Building Nearly
Completed—Other Improvements.

Parties from Waldo report great
progress in that town, which has ap-
parently taken on new life.

Among other improvements in Wal-
do is the new building of the Waldo
Bank, which is a neat brick structure,
and a building which would give
credit to any town or small city of
the State.

Among other buildings going up in
Waldo is that of Judge T. B. Tillis,
who is erecting one of the handsomest
and most modern one-story structures
in the State. This building will be
occupied by the United States Govern-
ment as the postoffice.

In all, Waldo is coming along, and
is yet destined to be one of the leading
towns of the county. There is no
reason, since this is an important jun-
ction point, where trains of the Sea-
board arrive and depart frequently
during a day.

Notice to Our Customers.

We are pleased to announce that
Foley's Honey and Tar for coughs,
colds and lung troubles is not affected
by the National Pure Food and Drug
Law as it contains no opiates or other
harmful drugs, and we recommend it
as a safe remedy for children and
adults. J. W. McCollum & Co.

A Christmas Gathering.

J. M. Turner of Lake View, one of
the most widely known and most
hospitable citizens of this section, was
in the city Thursday. Mr. Turner
states that his son-in-law and daugh-
ter, Mr. and Mrs. B. Baker, and their
son, Marvin, of Brunswick, Ga., and
his son, Roy, also of Brunswick, are
now with him, and that he is expect-
ing his daughter, Mrs. W. C. Niblack,
and her little son, for Christmas. Mr.
Turner says he has two of the finest
grandsons the world has ever pro-
duced, and on Christmas, in the morn-
ing, he will give them a cat-bird, and
in the afternoon they will have to be
content on killing a few birds. The
Christmas reunion at the Turner home
will be a jolly one.

REPORTER WAS MISINFORMED.

Frank Cellon Killed Three Deer on the
Trip to Lafayette County.

The Sun contained a report several
days ago to the effect that the La-
fayette county hunting party had
killed twelve deer, nine of which had
been creditably accounted for, the
other three doubtful.

F. E. Cellon of Hague, who was a
member of the party, writes The Sun
that there was no reason for this er-
ror, as there was only one way out
of it. He requests that the correct
solution be given, which was as fol-
lows: W. A. Strickland, three; J. D.
Stringfellow, three; M. M. Crews,
three, and F. E. Cellon three, making
the twelve deer.

The Sun does not believe that its
informant intended to misrepresent
matters, as the reporter feels sure
that the party who gave the informa-
tion is a fair-minded person, and mere-
ly mentioned the fact of the success
of those who most impressed him.
He reported in plain words that three
each were killed by Messrs. Strick-
land, Crews and Stringfellow, and
that he could not remember who
killed the other three, which he
thought were scattered.

If Mr. Cellon killed three deer, we
feel sure that the informant would
have been glad to have said so, had
he remembered it. It was merely a
question on his memory, and no in-
tention to do Mr. Cellon or any other
person an injustice.

SENSIBLE HOBBY.

Well-Known People Devote Spare
Time to Upbuilding Health.

There is no excuse today for any
person, unless afflicted with an incur-
able disease, to remain sickly with
the great advance in medical discov-
eries.

Stomach troubles are scarcely
known to those who have physical
culture as their hobby.

To those suffering with indigestion
and stomach troubles, the discovery
of Mi-o-na stomach tablets is a bless-
ing. This treatment strengthens the
muscles of the stomach and bowels
and cures the worst cases of indiges-

J. W. McCollum & Co. show their

the remedy does all that is claimed
for it. They take the whole risk and
Mi-o-na will not cost you a penny un-
less it cures.

Judge Bullock Generous.

A young man by the name of S. E.
Jones was convicted in the circuit
court this week of robbing the ware-
house at Sparr. All he seems to have
stolen, or at least all that was found
in his possession, was some unsigned
railway tickets. He was convicted and
sentenced to pay a fine of \$100 or to
serve a term of six months in the
county jail. Judge Bullock wrote a
touching letter to the young man's
father and begged him to pay the fine
and send for the young man. The
father, who resides in South Carolina,
wired the officials to buy his son a
ticket and draw on him for the
amount of the ticket and costs of
court. The young man left rejoicing
last night and will spend his Christ-
mas at home with his parents, instead
of in the phosphate camps.—Ocala

In Mayor's Court.

There was quite a lot in the mayor's
court Thursday, there being only one
case to come before His Honor. This
was the case of William Dasher, col-
ored, who was charged with a plain,
inoffensive drink. He was assessed
a fine of \$2.50 and costs, which was
promptly paid and the defendant
was sent "on his way rejoicing."

THE DAILY SUN, 10c a Week

FLORIDA ORANGES.

Demand Has Been Firm in New York Past Few Days.

The New York Commercial of December 16th says:

The feature in green fruits during the week was the advance in Florida and Porto Rico oranges. In the former the rise was from 75c to \$1 per box covering all sizes, and on the latter fully \$1 per box all round. The auction business was on a fair scale, the total for the week numbering close to 12,000 boxes of Florida and 10,000 boxes of Porto Ricos. At the close there was an upward tendency on small and medium sizes in Floridas. There was a good jobbing movement, with stock going to the jobbers in small lots. The shipments from Florida this coming week will, it is expected, be on a smaller scale, and in the following week the shipments are expected to fall off considerably. There is no speculative buying, as jobbers are protecting their wants only, the impression being that it will be possible to buy as stock is needed on favorable terms. Fancy Florida fruit is held in some cases up to \$3.15 per box on selected sizes. Some ordinary fruit can still be secured at around \$1.50 to \$2 per box. Choice grades in the small sizes are more active. In Porto Rico oranges the market was a little firmer from store in sympathy with the auction advances. Good stock in the large sizes was held to \$3 per box repacked. The poor fruit could be brought down to \$1.25 per box. California naval oranges at the close were a little firmer, and on large sizes the demand was fair. The fruit, however, is not giving good satisfaction, owing to conditions. All offerings in grapefruit were weak at the close. A good deal of Jamaica stock is held in store awaiting a better market.

"In lemons the market was without special feature at the close. The tone was easy and buying on jobbing order only. California stock is competing with Sicily fruit more keenly. In a jobbing way full outside figures have been paid. There was a fairly steady tone this week in Almeria grapes, and the market was fairly active as quoted. The last important sale of the season will take place this week. The Hermine with 1,150 barrels is made due here on Monday. Limes are dull and the tone is weak."

The Accident at Bronson.

The following account of the horrible death of a young man at Bronson on Tuesday appears in the current issue of The Levy Times-Democrat:

"Tuesday morning while the North-bound freight train was standing at the stock pen during the loading of a shipment of cattle and hogs, a flue of the engine burst, or the soft plug blew out. Mose Sauls, the fireman, was underneath the engine at work when all of the steam and boiling water in the boiler deluged him, literally cooking him.

"Engineer Bob Dupree, who went to the rescue of his fireman, had his hands badly scalded and will be laid up for a time.

"Young Sauls was immediately taken to Dr. Rice's office and tenderly ministered to. At 2 o'clock he was removed to J. P. Strickland's house, where death soon came to end his sufferings. The special train that had been sent from Archer to bring Dr. DePass, the railroad surgeon, and Roadmaster Sanders, also went to Rosewood and brought young Sauls' sorrowing mother to his bedside before he died.

"The wonder is that Sauls survived as long as he did. The skin on his wrists and hands, with the nails, peeled off like a glove, and while the skin on his tongue and the lining in his throat came off he never lost speech or consciousness until he went to sleep under the opiate administered.

"The sad accident has cast a gloom over the community.

"Sauls' parents reside at Rosewood, and the body was shipped there Tuesday night."

Children's

Favorite tonic is White's Cream Vermifuge, the cure for worms and all children's diseases. It not only kills the worms, but removes the mucus and slime in which they build their nests. Its action on the child is mild and leaves him in a healthy condition. Joe Daniel, Surmac, Tenn., says that he gave one of his children White's Cream Vermifuge when the doctor thought it had colic, and from the first dose the child passed seventy-three worms. Sold by W. M. Johnson.

Last week the city council voted to give the west half of the town square to the county upon which to build a court house if the county seat should be moved to New, Smyrna.—Daytona Gazette-News.

That message really looked as if it had been Morganized, after its first writing.

Mr. Tatt will return to find that absence does not make Foraker's heart grow fonder.

New York politicians now see that Hughes is as expert with the ax as he is with the saw.

When they begin the trials of those who have been hoarding money, a lot of us can plead "not guilty."

The message to Congress was really an address to the American people on the condition of the universe.

Senator Tillman intimates that the Secretary of the Treasury does not deal out money according to Hoyle.

Senator Knox's new grandson weighs 12 pounds, which is almost as much as his Presidential boom weighs.

With a Republican Congress in session how can the people get over their loss of confidence in National affairs.

Mr. Tom Johnson will call at the White House "shortly just to 'pass time of day' and show there are no hard feelings.

It may be assumed that a number of colored soldiers approve of the adverse criticism of the President's message on general principles.

The constituents of some of the brand new Congressmen who went to Washington to run things must begin to wonder why nothing has yet happened.

Perhaps the President waits for that interview with Mr. Watson on the free-bank question before recommending a definite plan of currency reform to Congress.

Mr. Tamm suggests that we get Mr. Carnegie to reform the alphabet. It is dangerous to make such a suggestion to a man who needs so many changes into which to bend his fingers and his pocketbook.

The elections in Massachusetts showed two Democratic gains. The gain which has been in the hands of the Republicans for the past ten years is called as mayor William E. Smith and Northampton elected James

Mr. Roosevelt has evidently decided that prosperity is not in the hands of the Republican Party. That boasting of prosperity is gone we have it. For he has said: "Optimism is a characteristic, but if carried to a point it becomes foolishness."

The issue of The Dunne-Horrell reads its editorial column with a voice that if you cannot say it is good about the town in which you live, to keep mum. In the Dunne-Horrell following The Advertiser proceeds to briefly "roast" the Dunne-Horrell plant for its inferior advertising plan that the company "put up or put out." That the Dunne-Horrell must have been a failure.

POLITICAL PROMISES.

President Roosevelt redeemed his promises to the Newspaper Publishers' Association, after a fashion, by recommending in his message that: "There should be no tariff on any forest product grown in this country, and, in especial, there should be no tariff on wood pulp." If Congress should carry out the President's recommendation by abolishing the tariff tax on forest products and wood pulp, such action would be entirely worthless to the consumers of print paper, because the price of print paper would remain the same. Such an amendment to the tariff law, would, however, be of great advantage to the paper trust, for it would give the combine free raw material, which is now taxed, if bleached, \$5 a ton and \$3.33 per ton if chemically prepared, or \$1.66 per ton on ground wood pulp in its raw state, all these rates being on the basis of dry pulp. This would still leave the average tariff of \$10 a ton on paper and protect the trust from the importation of foreign-made paper from Canada or elsewhere. Why did the President not fully redeem his promise to the Newspaper Publishers' Association and include in his recommendation to Congress the repeal of the tariff duty on paper? That would force the paper trust to compete with the Canadian paper mills and probably would reduce the price of paper about \$10 a ton, which is the amount of the tariff tax, without allowance for the difference in freight rates from Canada, and those rates charged from the point of distribution of the trust's products in this country. The standpatters who control Congress also seem to have a ring in the nose of the President which prevents him from advocating any tariff reform before election. For he tells Congress that "the subject cannot with wisdom be dealt with in the year preceding a Presidential election, because as a matter of fact experience has conclusively shown that at such a time it is impossible to get men to treat it from the standpoint of the public good." "In my judgment," says the President, "the wise time to deal with the matter is immediately after such election." Fancy Cannon, or Dalzell, or any of the "Hog Combine" reforming the tariff by reducing it! Their desire is to reform it higher, so Speaker Cannon has just declared to the Pottery Combine, and no doubt Congress will postpone abolishing the tariff on paper, though to help out the paper trust the tariff tax on wood pulp may be repealed.

As newspaper publishers are suffering from the high cost of paper with no chance of relief under Republican rule, why do the Republican editors still "stick to protection?" They know that if the Republicans elect the next President and the next Congress there will be no real tariff reform, for the Republican platform will again declare for the "principle of protection." A party which believes in the tariff that protects the trusts cannot be expected to deprive the paper trust, or any other trust, of the protection it now enjoys. It would undoubtedly help the people to reform the tariff, but to uproot the protective system the President tells Congress "could not but cause widespread disaster." Yet, by the declaration in the last Republican National platform upon which Mr. Roosevelt was elected and which he heartily endorsed, the voters of the country were induced to believe that prosperity always follows a Republican tariff. The question naturally arises, could we be suffering from a more disastrous panic than the present one if the tariff had been revised?

Someway, the boom of Senator Knox does not look as though it could stand a great many hard ones.

The Pictorial Edition of The Daytona Gazette-News is before us, and The Sun desires to extend its heartiest congratulations to the publishers, The Gazette-News Company, of which T. E. Fitzgerald is the able editor, for its completeness. The work contains sixty-four pages between cover, is profusely illustrated with elegant half-tone engravings, and contains several pages of reminiscences and history which are indeed interesting. This work covers not only Daytona, but the peninsula, Daytona Beach and Seabreeze, as well, and is destined to prove of great benefit to that beautiful section of the East Coast as an advertising medium. The paper is a work of typographical and intellectual art, and can be appreciated by those who love the artistic and the beautiful.

Through the courtesy of our friend, Chas. B. Kendall, business manager, we have received a copy of the Sunday edition of The Greensboro (N. C.) Daily Industrial News. This issue contains thirty-six pages, and is a specimen of modern journalism, well printed, well edited. Mr. Kendall was for years engaged in newspaper work in this State, being connected with The Clay County Times, Green Cove Springs, The Times-Herald, Palatka, and The Palm Beach News. He is regarded as one of the best newspaper men in the country, and his Florida brothers of the fraternity will be glad to learn that he is prospering.

Chicago, it is announced, has carried one thousand five hundred men on its payrolls as snow-shovelers throughout the last two summers. It had to increase its snow-removal force by four hundred in July, 1906. Probably trying to advertise itself as a summer resort.

Henry O. Havemeyer, president of the sugar trust, is dead, but the trust will survive as long as the Republican party is in power. "The tariff is the mother of trusts," was his evidence before the Industrial Commission in 1901.

In speaking of furnishing contributions to each of the two great parties, the President intimates that two parties are a plenty at one time for this country.

AUSTRALIA.

Gray and Monotonous, but Vast, Patient and Fascinating.

Australia is in itself a monstrous continent. It is as large as the United States; its 4,000,000 of people are scattered in a narrow fringe along the streams and shores of the southern and eastern seaboard. The vast interior—"the dead heart of Australia"—a region as large as the Mississippi valley, is a trackless, rainless waste of sand and alkali, while the intervening hills, the bush and scrub, are scantily occupied by sheep stations and by mining camps. The vast north of Australia is in part a tropical jungle, in part a blistering Sahara. The fates dealt to Australia the gift of high mountains to catch the snow and hold the water; hence her rivers are few and precarious; hence at too frequent intervals the great drought comes, and the desert spreads its smothering arms, crowding man and his dependents backward toward the sea. It is a monotonous country in its physical aspects. The forests on hill, valley, rock and swamp are all of one pattern—eucalyptus, eucalyptus, the gray trunks of the gum trees of many species—so far as the eye can see. Without mountains and streams there is little room for variety. It is monotonous in its industries—cattle, sheep, horses—the one fine art the breeding of the perfect Merino sheep. It is monotonous in its towns. One story, light brown, with unpainted roof of corrugated iron, is the description of nine-tenths of the Australian homes. Corrugated iron means clean rain water, and Australia can afford to waste none of it. It is monotonous as to population. The Englishmen came first to Australia, and they are still holding it against all comers. The way is made rough for immigrants who do not speak English, and for well or ill—in many ways for each—the ruling minority, the labor vote, is sternly set on "white Australia," with all which it implies. The history of Australia is monotonous, of bitter sufferings, deserved and undeserved; of lawless courage and reckless bravery, but the causes served were individual. Australians never had a common enemy, and their records show no glorious war and no uprising of common feeling. The achievements of Australia belong to the category of individual deeds of peace.

With all this the color of Australia is gray; the land, the towns, the spirit of her people. Her literature has a sober touch, and this difference in tone shows itself in its way in the life of the universities. In America, as in Browning's verse, "the flower of life is red." The American student knows that "the world is his oyster." He knows that "he can get what is coming to him;" that in proportion to his talents, his training, his sobriety and persistency of purpose will be his success in any affair he undertakes. But though Australia may be gray and monotonous she is vast, patient, fascinating. The mightiness of the land to be conquered, the huge roominess of the continent, the vistas of future national greatness, all these grow on one, and all these find their reflex in the student life and in the rising literature of the commonwealth. That Australia will be the birthplace of great men in the future no one can doubt. Their coming will not be due to the lopsided political administration nor to state ownership nor to the codding of the laborer, but to the persistence of her fine old English stock under man making and man inspiring conditions.—David Starr Jordan in Appleton's.

His Turn to Criticize.

Little John, who at the mature age of four has learned the Lord's Prayer, is often criticised by his sister, two years older, for slight mistakes which he cannot always avoid in offering the petition. A few Sundays ago he was taken to church for the first time. When the moment for the prayer arrived and the congregation bowed their heads John's mother took the precaution to whisper to him that he must be very quiet. "Listen," she said, "and you will hear the minister pray." This interested John at once, and his little face took on a look of serious attention, but his mother, watching him covertly, saw his expression change presently to one of surprise and disapproval. A few minutes more, and he could stand it no longer. What could this man be saying? Not a word of the prayer did he recognize as the only formula he had ever heard called by that name.

"Why, mother," he exclaimed in a tone audible over nearly half the church, "do you hear? He isn't saying it right at all!"—New York Times.

Hard to Dodge.

Englishman on Atlantic Coast. "Well, old chap, we'll soon be engaged with those blasted Yankee custom inspectors. American—You bet! And remember, old man, that the United States expects every man to pay his duty!" Puck.

Most people aren't so proud of being honest as ashamed of being poor.—New York Press.

WOMEN TO KEEP PLACES.

Believed Georgia Postmistresses Will Not Be Disturbed.

Washington, D. C., Dec. 19.—President Roosevelt has not yet recalled the nomination of Scott and McCollum to succeed Messrs. Gilman and Mellon as Georgia postmasters. He has been so busy since his return from reviewing the Atlantic fleet at Hampton Roads that he has not had time to reach these cases. It is believed, however, that when he reads the papers in the case submitted by the postmaster General Meyer that he will permit the Georgia ladies to rest in undisturbed possession of their offices. Such is the intimation given out by Mr. Lobb, secretary to the president. The changes in the senate committee assignments were officially announced Tuesday. Senator Bacon goes to the chairmanship of the committee on engrossed bills, and Senator Clay is appointed chairman of the committee on woman's suffrage.

The new house committee on appropriations met Tuesday afternoon and organized. Colonel Livingston was appointed on the subcommittee handling legislative bills, pensions and deficiencies.

The statement issued by Secretary Cortes, in regard to the published reports of his presidential aspirations and the activity of his friends, has caused considerable comment. So far as the secretary's illness is concerned there is no question. The strain upon him resulting from his arduous work in connection with the recent financial situation has paved the way for the present attack. Should his illness prove a long one, Atlanta will be denied the visit which the secretary has been endeavoring to arrange for the latter part of January. He was invited by President J. W. Pope to be the guest of honor at the annual dinner of the Atlanta chamber of commerce.

Man 75 Years Old Party to Complicated Marital Controversy.

Montgomery, Ala., Dec. 19.—T. H. Thompson, an old man of Colbert county, is a party to a complicated marital controversy, in which two women and one man other than himself are concerned.

He married some weeks ago wife No. 2, and shortly afterwards they became dissatisfied. He then told her that he was not legally married to her, that his second wife was yet living, re from him. STH AOAIOO of from whom he had never been divorced. A charge of bigamy was then brought against him. Investigation, however, proved that wife No. 2 had a husband when she married Thompson, hence that alliance was not legal. Wife No. 1, being dead, the first marriage was, therefore, law.

His first wife has brought suit for support.

Thompson is seventy-five years old.

THE PERFECT WAY

Scores of Florida Citizens Have Learned It.

If you suffer from backache, there is only one way to cure it. The perfect way is to cure the kidneys.

A bad back means sick kidneys. Neglect it, urinary troubles follow. Doan's Kidney Pills are made for kidneys only.

S. B. Lemons, cigar maker, living at 1311 Ashlet street, Tampa, Fla., says: "I used Doan's Kidney Pills and they cured me of backache and disorder of the kidneys. Two or three times on account of the pain in my back I was unable to work for several days. The secretions of the kidneys were in a very bad condition, dark in color, and if allowed to stand would become of the consistency of jelly. I tried various remedies, taking what seemed like gallons of medicine and I also put on plasters, but nothing helped me at all until I got Doan's Kidney Pills upon the advice of a friend of mine, and using them according to directions they cured me in a very short time."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Blew Off Top of His Head.

Collinsville, Ala., Dec. 19.—Nash W. Ward, a highly respected citizen of this place, committed suicide here Tuesday morning by blowing off the entire top of his head with a shotgun. He left a note saying his act was because of financial difficulties. The suicide was committed in a rear room at his home, his wife and daughter being in the front part of the house at the time.

More "Dry" Territory.

Chicago, Dec. 19.—Chicago now has one more square mile of "dry" territory than it had Monday. The square mile, almost one per cent of the entire city, was added to the prohibition area by the city council. Comment other than that the district had been canvassed and that prohibition was the desire of its residents, the vote was ordered taken. The result was 37 ayes to 25 nays.

Situation Continues Strained.

Telleran, Dec. 19.—Outside of a few isolated killings and robberies, there have been, up to the present time, no disturbances of public order in this city; nevertheless, the situation continues most strained. The constitutionalists are quiet, but determined to fight if attacked. They are well armed, while the supporters of the reactionaries have few effective weapons.

Jenny Led to Tragedy

San Francisco, Cal., Dec. 19.—A young woman, formerly a Santa Fe artist at Naples, Tuesday shot Miss Myrtle Craig twice through the heart, causing instant death. Turning the weapon upon himself he fired a bullet into his head, dying an hour later. The deed was caused by jealousy.

HOW HE HAS MADE A SUCCESS

L. T. Cooper Tells Chicago Reporter Why He Accomplishes So Much.

No man in recent years has been more successful in restoring human health than L. T. Cooper. During his stay in Chicago, and while he was meeting thousands of people daily, he gave the following reason for the remarkable demand for his medicine to a reporter:

Mr. Cooper said: "My New Discovery is successful because it corrects the stomach. My theory is that few can be sick if the digestive apparatus is working properly. It naturally follows that few can be well with a poor digestion."

"I know from experience that most of the tired, half-sick people that are so common now-a-days have half-sick stomachs. Put the stomach in shape, and nature does the rest. The result is general good health. My medicine does this. That is why fifty thousand people here in Chicago are using it who never heard of me until a month ago."

Among the fifty thousand mentioned by Mr. Cooper who used his medicine in Chicago is Mrs. Hilda Pfeuffer, living at 1203 Ansie Avenue. This is the statement she makes concerning her experience with the medicine:

"I have been sick for six years with

stomach trouble. I was always hungry, but did not dare eat much, as I had severe pains in my stomach, and also through my body. I could not sleep at night and was very restless. I was also very nervous, and would have severe headaches. I was constipated, and always felt bloated after eating."

"I had tried many remedies, but could secure no relief, until one day I noticed in the newspapers what wonderful results Cooper's medicines were accomplishing in Chicago. I decided to try them, and shortly after commencing the treatment I began to feel better. I did not have those severe pains in my stomach, and I could sleep at night; my appetite improved, and I can now eat well. I am feeling like a new woman."

"I am very thankful to Mr. Cooper for what his remedies have done for me. They have restored me to good health, and I would advise any one who suffers as I did to try them."

We sell the Cooper medicines. They are easily the most celebrated preparations ever introduced in this country, growing in popularity daily. — J. W. McCollum & Co.
